

## Monark Prime Credit Fund Fund Summary

### About Us

Monark Property Partners is a real estate financier and investor known for its disciplined, cautious, and patient approach to investing.

Monark Property Partners Pty Ltd (Monark) was established in 2013 as a joint venture between Bori Liberman's Family Office (Jagen) and Michael Kark and Adam Slade-Jacobson (Monark's Executive Directors), with the vision of bringing quality property projects to life through innovative funding solutions which generate great outcomes for both our development and funding partners.

We choose carefully where to invest, preferring to focus on the 'middle property market' – mid-sized developments in selected, premium geographical areas. This market has proven to be more resilient than other sectors with less volatile pricing providing stronger security.

Since its inception in 2013, Monark has committed over \$2.0 billion of capital across 298 property investments with a gross realisable value of \$6.7 billion. Our experience, discipline and a naturally cautious approach have resulted in an unblemished track record with 100% preservation of investor capital. This is an achievement of which we are both proud and determined to maintain.
